### SUN SAFETY in MAY

It's good to get some sun (that's one of the few ways you can get your vitamin D), but overexposure to the sun can burn your skin now, so be careful if you are starting on that summer tan. Protect yourself by:

1. Using a sunscreen with s.p.f. of 30 or more when you are out between noon and 3 p.m.
2. Rub sunscreen on your face, the back of your neck, and any other exposed skin. Wear a hat to shield your scalp and face.
