

Subject: CBRSD - Notification of Closure

Dear Central Berkshire Regional School District Community,

Out of an abundance of caution regarding COVID-19 and after communication with the Commissioner of Education's Office and neighboring districts, all Central Berkshire schools will be closed for two weeks as of Monday, March 16 through Friday, March 27, 2020. Based on this closure our last day of school will be June 18, 2020. This closure will not impact April Vacation or Good Friday. This closure is purely precautionary to enable time to fully clean our buildings and assess the situation as it evolves.

The buildings will be completely closed to all staff and community with the exception of those responsible for cleaning. All meetings scheduled during this time frame are cancelled and will be rescheduled as necessary. Please note this includes all athletic programming.

Please continue to monitor the [Department of Public Health website](#) for updates. We will send out any pertinent updates as well as they become available. There is a link on the [district website](#) with information to include a question and answer page that will continue to be updated as more information becomes available.

You will also be receiving additional building specific information from your school principals.

Respectfully,

Laurie Casna
Superintendent of Schools
