

Dear CBRSD Families and Staff,

Per the order of Governor Baker all schools in Massachusetts will be closed until at least **Monday, May 4, 2020**. Therefore all CBRSD Schools will be closed until that time or until an additional order is received.

1. If you need any support with food or technology please leave a message at the district office: 413-684-0320 or contact your building principal.
2. All events planned through May 4 are cancelled. In some cases these will be rescheduled remotely or at a later date. More specific information will be sent as it becomes available.
3. The district has updated the instructional resources for students in the form of a Learning from Home Plan, this will be shared by your building principals and will be on the district website later this week.

Please note during the closure it is very important students, families and staff are regularly checking their email as that will be the primary method of communication for important updates.

Our thoughts are with all of our community members especially our students as we work together to get through this difficult time.

Be Well,

Laurie Casna
Superintendent of Schools
