## WAHCONAH RHS INVITED TO MSBA PROGRAM

### *A message from the School Building Committee*

**Members of the CBRSD Community:** Wahconah Regional High School has been invited to participate in the MSBA (Massachusetts School Building Authority) School Building Program. The first step in the MSBA process is for the residents of the towns to approve (by vote) a *feasibility study*. This vote will take place next spring, 2017. If passed, the study will be conducted and will determine the best long-term solution for the building. A significant portion of the funding for the Feasibility Study and resulting building project (new or renovation) will be reimbursed by MSBA. A School Building Committee has been formed Chaired by School Committee Chairperson Shawn Armacost and Retired High School Principal, Tom Callahan. The membership of the School Building Committee includes representation from each of the seven towns and school personnel.
